Some of the New Spring Ideas in Dress Fabrics,

Cream Woolen Soods in Particular.

Our business this spring in Silks and Dress Goods has been an unprecedented one. To be exact-comparing month for month with 1901, it has very nearly doubled.

There's been nothing but plain statements used in our store news. We have had what we believe to be the best line of dress goods and silks in Richmond, and we've told you about them in a common sense way through the newspapers. You believed it and we've had the business.

We try to give from time to time hants as to what seems to be the leading lines in dress fabrics. Cream is to be one of the most fashionable shades used this season. Cream waists, cream skirts and entire suits of cream are to be much worn by the ultra fashionable set.

We are showing an unusually large assortment in all the new, soft, filmy weaves so much sought after

Cream Violes and Etamines, \$1.50.

Cream Striped Etamines and Broaacloth, \$1.25.

Cream Viole, Cream Etamine, Cream Bedford Cord, Cream Silk and Wool Creps, Gream Canadensis and Cheviot,

Cream Foule, Melrose, Mohair, Wool Crepe, 75c.

Mistrals and Violes, \$1.00.

We have just received another shipment of Rope Mistrals and Imported Violes which we told you would arrive during the week, all the scarce shades, as well as black and cream.

Silk Stripe Crepes, \$1.50.

Cream Batiste, Mohair, Albatross, French Flannel, Nun's Veiling and Waist Cloth, 50c.

Colored Taffetas, 48c.

All pure silk, with good lustre, excellent for linings and separate waists, in all of the most fashionable shades, including black

Wash Silks, 45c.

Another shipment just received of Wash Silks, in all-white as well as the colored.

New Corded Taffetas, 55c. 19 inches wide, soft finish and very lustrous, in a wide range of desirable shades.

Silk Pongees.

Pongees are very fashionable this season for street and carriage

gowns, visiting dresses, separate waists, etc. Pongee Silk, 50c. Pongee Silk, 75c. Tussan Silk, \$1.00,

Striped Tussah, 75c. Striped Tussah, 50c.

Striped Pongees, 75c.

Satin Striped Plumetis, \$1.00 and \$1.50.

This is one of the newest dress fabrics out this season. They are made of silk and linen, having a silk warp and linen filling. Some of them have white satin stripes; others have light blue, green, royal and torquoise stripes, giving the material a very dressy effect. The prices range from \$1.00 to \$1.50 per yard.

Silk and Linen Plumetis, 50c.

42 inches wide, silk warp with linen filling, in the natural linen shade. Very fashionable for entire suits.

Dress Trimmings.

We have opened during the past week a new lot of Chiffon Appliques, in all the new Persian effects as well as black and white: new Skirt Rufflings in Tosca and Point d'Esprit Net, as well as in the Liberty Silks. Prices range from 39c to 89c per

Spring in the Suit Section.

(A Great Sale of Tailored Suits.)

No matter what you want in outer garments you can find it here. If it's Separate Skirts, they're here in the newest designs and the lightest weights. If your thoughts turn toward a light weight Suit—which will be useful all summer-we can fit you out in the finest of the season's productions. The tailors have so improved on their work year by year that the summer suit is no longer dreaded as being too heavy and cumbersome, but it's an actual necessity for a cool morning or evening.

The White Waist showing in this department is just a revelation in quality, price and assortment to the Richmond ladies. Let us show you through it to-morrow.

New Skirts.

One of them is a basket weave cloth at \$7.50. It's a light weight and very dressy in appearance, having a flounced bottom and being nicely trimmed.

An All-Wool Broadcloth Unlined Skirt for \$5.98 is an especially good one. It's trimmed with taffeta bands and every seam is tailor finished. T is one comes in black, navy, castor and gray.

Unlined Skirts are to be fashionable this season, and to be just correct in fit and hang, the seams should be bound. You'll find that ours are

White Waists

For 89c that are worth \$1.00. When we say \$1.00 you know of course that it represents the real value of the article. We're making a special price on this Waist. which is a sheer quality of lawn of wide embroidery and nice pearl buttons.

Another handsome Waist is of very sheer India linon with 38 small tucks. It's hemstitched across the entire front. Deep collars and cuffs finished to match. Only \$1.98. Other styles here ranging from 50c

The New Silk Petticoats

Are all made of a good quality of taffeta, and have just that swish that goes with a well made, well fitting skirt.

Three prices quoted to-day. One at \$5.75 is made with a narrow accordion pleated ruffle and a corded dust ruffle of near silk. This petticoat comes in black

Another style in black and colored taffeta is made with a graduated accordion pleated ruffle, bottom finished with three hemstitched tucks and a dust ruffle of self-colored taffeta, for \$8.50.

One of the best we have ever shown for \$9.75 is made en train with a wide accordion pleated ruffle, corded and hemstitched. This underskirt is very toll.

A Silk Waist

For \$3.48 is of China silk with a broad tucked front, new collar and cuffs. We have it in black, white, blue and green.

Kitchener's Cavalry Using Tredegar Works Horse Shoes; German Wash Women, Cedar Works Buckets; Engines Beyond Two Seas.

The most notable feature and tendency in the world of maustry and commercial enterprise during the past accuse has been the American trace invasion of the

markets of the world.

American-made wares are seeking and finding purchaseins the world over. Especially notable has been the success which has accompanied American enter prise and pluck in efforts at trade expansion with Great Britain and European countries. In every business day of last year the United States sent to Great Britain \$1,50,000 worth of goods in exof those received. This situation the reverse of the condition which

existed ten years previously.

The o are English districts whose names have become words in our failgenge amonomous with regian great classes of manufactured goods. In these very fields America has come to compete successfully in their great specialties. It is literally true that America has sold cottons in Manchester, pig iron in Lanca-shire, and steel in Sheffield.

American-built, engines supply the power for the operation of American-built electric lines in several European cities, notably Glasgow.

American-made linotype machines and American built quadruple presses in Man-chester and Sheffield and other English cities turn out daily newspapers printed on American paper. RICHMOND'S FOREIGN TRADE.

In this awakening to the opportunities of trade expansion in the markets of the world the industries and enterprises of Richmod have not lagged behind. It is a fact too little known and heralded that Richmond made wares have come to have an established place in the larger com-merce that supplies the markets of the

The products of the Richmond factories of the American Tobacco Company are known and on sale the world over. In large quantities plug tobacco and smok-ing tobacco and more especially cigarettes are shipped to all parts of the world. It is said that there are extensive districts of inland China in which the Allen & Gin-ter eigarettes are the only foreign-made goods to be found in the shops.

The factories of the Second Internal Revenue District of Virginia, including Richmond and Petersburg, manufacture ninety-five per cent. of all the plug tobacco exported from the United States. The plug tobacco for the United States Navy is and has been for years exclusively a Virginia product and a Richmond

The mining of iron puties and the manufacture of suphurid acid in Virginia is a comparatively new industry. It was begun in Louisa county in 1883, and the first products were sent to Europe for experiments. The results being satisfactory, a furnace was imported from Europe and set up in Richmond for burning this pyrites and making sulphuric acid. To-day the value of the output of this enterprise is \$500,000 a year. Three-fourths of all the pyrites mined in the United States is taken from these mines. The manufactured product is shipped the world over.

At Richmond the largest wood-working establishment in the world-the Richmond Cedar-Works-manufactures wares which go all over the United States, and are now largely exported to England, Ger-many, France, South Africa and Australia. It has been celebrated for its high qualities ever since and maintains an international reputation. It is shipped in considerable quantities to supply the foreign trade. European trade is quite a factor in the success of the extensive scapstone works in Albemarle county, which furnish this article to the world in all conceivable

THE ROANOKE PRESBYTERY

A Meeting of Virginia and North Carolina Photographers to Take Place at Danville-A Holiness Meeting and the Way it is Regarded.

(Special Dispatch to The Times.)

DAN vILLE. VA., April 12—Roanoke Presoytery convened nere early this week. The sessions are held in the First Presbyterian Church. Rev. L. B., Johnson, of South Boston, the retiring modenator, preached a thoughtful and impressive sermon on Tuesday night. Ten ministers and lifteen ruling elders were present at the first session and fifteen out of a total of forty-eight courches were represented. The Presbytery ortanized by electing Rev. Mr. Ailler, of Christotte, as moderator and Messrs. J. R. Morton, of Meherrin and E. M. Williamson, of Martinsville, as writing and reading clerks respectively. The Women's Presbyterial Union held an interesting meeting in the lecture room of the church on Wednesday morning.

A GOOD MOVE.

A resolution adopted by the City Council provides for a committee of councilmen to be known as the Roads Committee, which is required to examine the nighways in proximity to the city and leading into it and co-operate with the coun-

This city was chosen as the place and the sth, 5th and 5th of November next were the dates fixed upon.

Some comment is being made here on the fact that Ed. Brown, who recently provoked an encounter with his wifes brother, in which both men were shot and painfully wounded, has been bailed in the sum of \$1,000. Brown is regarded as a desperate character. As stated at the time of the shooting incident, he has served a term in the penitentiary.

The religionist's coming to be widely known as clinest people are holding a convention in this city. The meetings occurred two or three times a day in the municipal building. From all accounts, frenzied excitement is a conspicuous feature, Many, people attend because of a sincere interest in the meeting and some of these leave the place day after day under the impression that although still in the flesh, still human; they are dead to the world, clean, without spot or blemish and fit for heaven without any sort of intervention. It is just as apparent that others go because they look upon it as a show and the best one that has been in the town for a long time.

WOMAN'S UNION.

While the Roanoke Presbytery is in session here, the woman's Presbyterian Union is also holding dally meetings. Reports of the officers show that the Union is doing quite effectively a very helpful work in the Church.

A matter of general interest discussed at some of the business meetings of the Presbytery is the proposition to divide the Synod—the Blue Ridge to be the line of division. The prevailing sentiment of Presbytery seems to favor the division.

WANT IT PROCLAIMED.

Those for Submission Want to Vote Against Constitution.

(Special Dispatch to The Times.) CHASE CITY, VA., April 12.—The new Constitution has the approval of the Demo-crats of this county. My interviews with numerous Democrats indicate a general desire to have the instrument proclaimed opportunity to vote against it. If the supporters of the new Constitution feel assured it will be ratified by the voters why go to the expense and excitement of an election? The change in the judiciary department and county organizations are some of its most commendable features.

Mr. George P. Tarry, member of the convention from Mecklenburg, has been interviewing the people and seemed satisable to proclamation of the Constitution by the convention.

Mr. W. H. L. Nelms, who has been the

efficient railroad agent here for ten years, has accepted a position with the Seaboard Air Line to locate at Atlanta, at an advanced salary. He will leave at soon as his successor assumes the duties. There is general regret at his departure. His courtesy and business methods commended him to all the patrons of the railroad.

Mr. Thomas F. Pettus, Jr., of this place, will be married on 23d April to Miss Sue Egerton Blount, at Wilson, N. C. Messrs. Yancey, Winn and Thomasson, tobacconists here, are preparing to erect a large and modern warehouse for the sale of all grades of tobacco.

..There is a great demand for lumber here and good timbered lands meet with ready sale. Farming lands are sold at low prices. Labor is scarce and high priced. The building contractors work almost exclusively white men. Good wages are paid. Able-bodied negroes continue to leave for public works, saw mills, and mines. When a negro accumulates enough to buy two acres and build a cabin he has the deed made to his wife and no inducements can make him sell. He is happy n his rude home and works or idles as ne
